

**Is your electric heating system ready for an upgrade?**

**Consider Going Ductless and earn a \$1,500 rebate in the process!**

A Ductless Heating and Cooling System is a highly efficient system that is easily installed as a new primary heat source for electrically heated homes. Ductless Heat Pump systems heat and cool homes at a fraction of the cost of baseboards and wall heaters. They are safer, quieter and heat rooms evenly (no more hot or cool spots).

**WHY UPGRADE TO A DUCTLESS HEATING & COOLING SYSTEM?**

- Save Energy & Money Every Month - 25% to 50% less to heat your home
- Experience a More Comfortable Home
- Low-Cost Easy Installation
- Systems Come Standard With Air Conditioning!

**THE PUD HAS \$1,500 REBATES FOR QUALIFIED INSTALLATIONS**

Some systems may also qualify for an additional tax credit up to \$1,500 – ask your contractor and/or tax professional for details.

**YOU'RE PROBABLY READY FOR AN UPGRADE**

Electric baseboard and wall heaters can be an inefficient and uncomfortable heat source for homes. Cowlitz PUD is helping residential customers upgrade to a more energy efficient alternative, a Ductless Heating and Cooling System.
